

POINT OF SALE

LSCOAM:Maintain Company Acct

The **MAJIK** Point of Sale module is intended for organisations that handle a large volume of cash transactions both at the point of sale and after sale. It provides frontline users with the ability to accept the payment of money in a variety of forms as soon as the cash transaction is eventuated. In addition it also allows them to create receipts for payment of outstanding invoices from existing account customers.

Point of Sale is integrated with the Accounts Receivable module and other **MAJIK** Enterprise modules such as Inventory, Property Management and Work Flow.

BENEFITS

<u>Overview</u>

- Ability to create cash sales transactions for non-account customers.
- Ability to accept payment of accounts and apply it against outstanding invoices.
- Ability to easily search for customer accounts.
- Ability to raise on-the-spot invoices on special occasions such as infringement notices.
- Easily caters for cancellation of receipts issued in error.
- Easily allows reprinting of receipts.

Invoice and Receipt Printing

- Tax invoice can be created and printed at once.
- Receipts can be issued quickly to waiting customers.
- Payment information such as credit card details and cheque details are easily entered into the system.

Integration with other modules

- The Accounts Receivable module is updated automatically ensuring account balances are correct at the time of entry.
- Dynamic interfaces with the General Ledger provided that the posting procedure is performed regularly.
- Full integration with Property Management module that provides detail of unoccupied spaces available for casual letting.

Banking and Reconciliation

- Till reconciliation can be performed at any given time by printing a detailed batch report to balance the money receipted in case of imbalance.
- Deposit details can be printed to go along with the deposit slip when doing the banking.
- Easy integration to the Electronic Funds Transfer module.

Payment Modes

- Point Of Sale can accept cash, cheque, credit card or a combination as required.
- Credit card can be easily selected from a list such as Visa, Mastercard, Bankcard, or Amex.
- Cheque details include cheque number, account name, BSB number, and a specific reference if applicable.
